AUTHORIZATION FOR RELEASE OF INFORMATION BY COMPREHENSIVE PAIN MANAGEMENT ASSOCIATES: I hereby authorize and direct the above named clinical practice, having treated me, to release to governmental agencies, insurance carriers, or others who are financially liable for my medical care, all information needed to substantiate payment for such medical care and to permit representatives hereof to examine and make copies of all records relating to such treatment. I hereby authorize Comprehensive Pain Management to furnish all records, including those relating to AIDS (HIV) testing, request and results to my referring physician.

I, hereby assign, transfer and sign over to COMPREHENSIVE PAIN MANAGEMENT ASSOCIATES all monies and/or benefits to which I may be entitled from government agencies, insurance carriers or others who are financially liable for my medical costs of the care and treatment rendered to myself or my dependent.

I acknowledge that if I have to cancel or reschedule an appointment, I must do so at least 24 hours prior to the appointment or I will pay a $25.00 fee. I agree to pay a $25.00 fee for a missed appointment.

I understand that regardless of my insurance status, I'm ultimately responsible for the balance on my account for any professional services rendered. I accept financial responsibility for procedures deemed medically unnecessary by my insurance company. If for any reason my account is sent to a collection agency, I am responsible for all costs incurred. I certify that the health insurance information (commercial, no-fault, worker compensation or Medicare) that I gave to your office is true and correct. Also, I acknowledge that I am responsible for notifying this office of any and all changes in my health insurance.

Important Information for No-Fault Patients

When you call PAC/CPM to make your first appt, our billing department calls your insurance carrier to verify coverage. We ask your insurance if the case is still open and if there are any denials on your case, but your insurance cannot tell us if you are close to meeting your maximum benefits (i.e., $50,000.00). It takes approximately 6-8 weeks for your insurance company to send us denial once you have reached your maximum benefits. This leaves you, the patient, financially responsible for the balance of your account.

Also, if the no-fault insurance company is investigating the driver of the motor vehicle for possible DUI or DWI, and the toxicology reports are positive, the insurance company will not pay for any medical treatment. All auto insurance policies include a statement that all coverage is void (medical, collision, comprehensive, etc) if a positive toxicology report is found to be positive for the driver. It may take several weeks for the results of these tests. This makes you, the patient, financially responsible for the balance of your account.

In some cases, your commercial insurance will cover your medical bills, but this depends on the type of policy that you have and if PAC/CPM participates with your insurance. If you have an insurance policy that requires referrals and pre-authorization, your insurance may not pay for any outstanding bills for medical treatment and this leaves you, the patient financially responsible for the balance of your account.

Please speak to one of our billing specialist for more information.

MEDICATION AGREEMENT

We have found it both necessary and helpful for the patients and clinicians to outline the terms of the medication prescription and usage. This enables the clinicians to communicate the patient's responsibilities as well as the clinicians' responsibilities. By outlining and enumerating these issues, we are better able to serve the patient.

1. Medications must be taken as directed, both on schedule and in the proper dosage. Any change in either one of these things must be discussed with prescriber.
2. No medication prescriptions will be discussed or written after hours or on weekends, or prescribed by telephone
3. Controlled pain medication prescriptions must be prescribed only from our practice. The patient must use a single pharmacy for the prescriptions.
4. Medications or prescriptions may not be replaced if lost or stolen, etc. It is the patient's obligation to safeguard their medicines.
5. The patient must inform Comprehensive Pain Management Associates if there is a serious problem with any of the medications immediately, i.e., rash, stomach upset, or any other possible side effects.
6. We may be using potent medication in your treatment such as opioids or benzodiazepines. These medications have side effects as well as the possibility of tolerance or dependence. They may also cause symptoms of withdrawal if they are suddenly stopped.
7. It is also important that you understand there are other treatment options which can be used instead of or with the medication; these will be discussed.
8. Urine specimens may be requested to help determine compliance of your treatment.
9. You agree to keep all scheduled appointments.
10. I give permission to my pain doctor to contact my other healthcare providers, for the purposes of sharing information concerning my situation, as is deemed necessary for coordinated, high quality care.
11. You agree not to use any alcohol, "street drugs", illegal drugs, including marijuana, as long as you are a patient in our practice.
12. If you have used illegal drugs, including marijuana, or abused alcohol or prescription drugs in the past, you will tell us.

Any violation of this agreement may be cause for termination from the practice.

Guidelines for Controlled Substances

We are committed to doing all we can to treat your chronic pain condition. In some cases, controlled substances are used as a therapeutic option in the management of chronic pain and related anxiety and depression, which is strictly regulated by both state and federal agencies. This agreement is a tool to protect both you and the physician by establishing guidelines, within the laws, for proper controlled substance use. The words "we" and "our" refer to the facility and the words "I", "you", "me" or "my" refer to you, the patient.

1. i. I understand that chronic opioid therapy has been associated with not only addiction and abuse, but also multiple medical problem including the suppression of endocrine function resulting in low hormonal levels in men and women, which may affect mood, stamina, sexual desire, and physical and sexual performance.

   ii. For female patients, if I plan to become pregnant or believe that I have become pregnant while taking this medication, I am aware that, should I carry the baby to delivery while taking these medications; the baby will be physically dependent upon opioids. I will immediately call my obstetrician and this office to inform them of my pregnancy. I am also aware that opioids may cause a birth defect, even though it is extremely rare.

   iii. I have been informed that long-term and/or high doses of pain medications may also cause increased levels of pain known as opioid induced hyperalgesia (pain medicine causing more pain) where simple touch will be predicted as pain and pain gradually increases in intensity and also the location with hurting all over the body. I understand that opioid- induced hyperalgesia is a normal, expected result of using these medicines for a long period of time. This is only treated with addition of non-steroidal anti-inflammatory drugs such as Advil, Ibuprofen, etc., or by reducing or stopping opioids.

   iv. I understand that physical dependence is not the same as addiction. I am aware physical dependence means that is my pain medicine use is markedly decreased, stopped, or reversed by some of the agents mentioned above; I will experience a withdrawal syndrome. This means I may have any or all of the following: runny nose, yawning, larger pupils, goose bumps, abdominal pain and cramping, diarrhea, irritability, aches throughout my body and a flu-like feeling. I am aware that opioid withdrawal is uncomfortable, but not life threatening.

   v. I am aware that tolerance to analgesia means that 'I may require more medicine to get the same amount of pain relief'. I am aware that tolerance to analgesia does not seem to be a big problem for most patients with chronic pain; however it has been seen and may occur to me. If it occurs, increasing doses may not always help and may cause unacceptable side effects. Tolerance or failure to respond well to opioids may cause my doctor to choose another form of treatment, reduce the dose, or stop it.

2. i. All controlled substances must *come* from the physicians or physician assistants in this practice or during his/her absence, by covering physician, unless specific written authorization is obtained for an exception.

   ii. I understand that I must tell the physician whose signature appears below or during his/her absence, the covering physician, all drugs that I am taking, have purchased, or have obtained, even over-the-counter medications. Failure to do so may result in drug interactions or overdoses that could result in harm to me, including death.

   iii. I will not seek prescriptions for controlled substances from any other physician, health care provider, or dentist. I understand is it unlawful to be prescribed the same controlled medication by more than one physician at a time without each physician's knowledge.

iv. I, also understand that it is unlawful to obtain or to attempt to obtain a prescription for a controlled substance by knowingly misrepresenting facts to a physician of his/her staff or knowingly withholding facts from a physician or his/her staff (including failure to inform the physician or his/her staff of all controlled substances that I have been prescribed).

3. All controlled substances must be obtained at the same pharmacy where possible. Should the need arise to change pharmacies, our office must be informed. The pharmacy that you selected is:

Name of Pharmacy	Address (Street & Town if full address unknown)	Phone #

4. i. You may not share, sell, or otherwise permit other, including your spouse or family members, to have access to any controlled substances that you have been prescribed,

ii. Early refills will not be given. Renewals are based upon keeping scheduled appointments. Please do not make excessive phone calls for prescriptions or early refills and do not phone for refill after hours or on weekends. NO EXCEPTIONS WILL BE MADE.

iii. The patient on their own is not allowed to alter the dosing regiment of the prescription written by the physician or any covering physicians. NO medications will be refilled early due to patient increasing dose. If medication is not covering pain levels then appointment needs to be made to discuss with the physician and medication needs to be brought with you to appointment for a pill count. All pills need to be accounted for prior to discussion. No Exceptions.

iv. Unannounced pill counts, random urine or serum, or planned drug screening may be requested from you and your cooperation is required. Presence of unauthorized substances in urine or serum toxicology screens may result in your discharge from the facility and its physicians' and staff.

5. I will not consume excessive amounts of alcohol in conjunction with controlled substances. I will not use, purchase, or otherwise obtain any other legal drugs except ~specifically authorized by the physician whose signature appears below or during his/her absence, by the covering physician, as set forth in Section 2 above. I will not use, purchase, or otherwise obtain any illegal drugs, including marijuana, cocaine, etc. I understand that driving while under the influence of any substance, including a prescribed controlled substance or any combination of substances (e.g., alcohol and prescription drugs), which impairs my driving ability, may result in DUI charges.

6. Medications or written prescriptions may not be replaced if they are lost, stolen, get wet, are destroyed, left on an airplane, etc. If your medication has been stolen, it will not be replaced unless explicit proof is provided with direct evidence from authorities. A report narrating what you told the authorities is not enough.

7. In the event you are arrested or incarcerated related to legal or illegal drugs (including alcohol), refills on controlled substances will not be given.

8. I understand that failure to adhere to these policies may result in cessation of therapy with controlled substances prescribed by this physician and other physicians at the facility and that law enforcement officials may be contacted.

9. I also understand that my prescribing physician has permission to discuss all diagnostic and treatment details, including medications, with dispensing pharmacists, other professionals who provide your healthcare, or appropriate drug and law enforcement agencies for the purpose of maintaining accountability.

10. I affirm that I have full right and power to sign and to be bound by this agreement, that I have read it, and understand and accept all of its terms. A copy of this document has been given to me.
